DETAILED ACTION

Allowable Subject Matter

1. Claims 1-8 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Prior art fails to disclose or suggest, inter alia, a constant voltage power supply unit that generates a constant voltage with a ripple voltage, and a ripple removing circuit unit comprising: a resistor connected between the constant voltage power supply unit and the output terminal; a ripple voltage detection circuit unit for detecting the ripple voltage and outputting a signal depending on the detected ripple voltage; and a current circuit unit for receiving a signal from the ripple voltage detection circuit unit and supplying a current to the output terminal or absorbing a current from the resistor in response to the received signal, so as to cancel the ripple voltage at the output terminal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 7,233,130 Kay discloses an active ripple reduction switched

mode power supply; US 6,693,805 Steigerwald et al. disclose a ripple cancellation circuit for power supplies.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary L. Laxton whose telephone number is (571) 272-2079. The examiner can normally be reached on Monday thru Friday.
